

Title: SYSTEMS AND METHODS FOR PROVIDING INVOICE-BASED
BILLING INFORMATION ASSOCIATED WITH A CREDIT CARD
TRANSACTION

ABSTRACT OF THE DISCLOSURE

Systems and methods are disclosed to provide invoice-based billing information associated with a credit card transaction. According to one embodiment, information associated with a customer's credit card transaction is received. For example, transaction information, including a project identifier, may be received from merchant device or a credit card account device. It is then arranged through a communication network for invoice-based billing information associated with the credit card transaction to be provided via a customer device. For example, invoice-based billing information may be displayed to the customer via a Web site.
